

The Pony Show

On Saturday I went to the pony show. I rode on my favourite pony she is piebald. My teacher helped me do the working pony game. I had to do an obstacle course.

First I halted at the start and made a little bow for the judges. Then I went under a tree arch, I put my head down. Then I steered the pony around the trees and didn't let her eat the leaves. I halted at the gate, then opened it and went through.

Next I made my pony trot between the tyres and over the jump. It was fun jumping. At the next tyres I made the pony walk again.

I turned around and stopped at the road. I looked left and right, there was a little tractor on the road. I went between the logs and halted at a post box.

I reached over and got a letter then posted it into the box. Next I walked the pony over the logs and around the corner.

I steered a zigzag around the hay bales. Next I did a circle around the apple trees and halted between the trees. I picked an apple from the tree and dropped it into the basket. The apple didn't fall out.

At the end, I halted at the bell and rung the bell. Then I put up my hand to tell the judges I had finished. All the people gave me a clap. It was good at the pony show. I was a winner. I won a rosette, it said fourth on the rosette.
